

Bifora

Special honeymoon penthouse suite, (70 mq - 754 sq ft), built within the original XI century walls, where the typical romanesque double window - the "bifora" - gives a unique character to the space. Traces of XIth century fresco painting are still well visible. The layout is composed by: kitchenette; original corner terracotta fireplace; charming "secret" panoramic terrace which faces all the centenary olive grove valley and the forest hills, framed by antique castles at the horizon; attic bedroom; bathroom with shower. The bedroom and the sitting room are air conditioned.
